The screenshot shows the MongoDB Compass interface. The title bar reads "MongoDB Compass - 127.0.0.1:27017/smartblog". The left sidebar has sections for "Compass", "My Queries", "Data Modeling", and "CONNECTIONS" which lists "127.0.0.1:27017" with sub-options for "admin", "config", "dd_db", "local", and "smartblog". The "smartblog" section is expanded, showing "blogs" and "users" collections. The main right panel displays a table for the "smartblog" database with the following data:

Collection name	Properties	Storage size	Documents	Avg. document size	Indexes	Total Index size
blogs	-	36.86 kB	3	114.00 B	1	36.86 kB
users	-	32.77 kB	1	110.00 B	3	86.02 kB

At the top right of the main panel are buttons for "Open MongoDB shell", "Create collection", and "Refresh". A status bar at the bottom shows system information like weather, date, and time.

```

This screenshot shows the MongoDB Compass interface connected to the 'smartblog' database. The 'users' collection is selected, displaying one document. The document details a user account with fields: _id, username, password, createdAt, and __v. The Compass UI includes a sidebar for connections, a main workspace for documents, and a bottom navigation bar with various application icons.
